<b>Email</b> <a href="mailto:Zeeshannadeem1213@gmail.com">Zeeshannadeem1213@gmail.com</a>	<b>Projects</b>	<b><u>Home Health Care - Final Year Project [React JS, Mongo DB]</u></b> A website where patients can acquire medical facilities at home. This website eradicates the need to go to a hospital for basic treatments like nursing, physiotherapy etc. It comprises of 3 phases patient phase, App Administration, and Organization Administration. Patients can check availability, Schedule a meeting and rate a staff member. Among available staff, a staff member is selected based on his/her rating It's been automated no Administration indulgence. Organization administration deals with manipulating services and staff. App Administration permits an organization admin to be associated with Home Health Care. <b><u>Ludo Board Game [Unity 3d, C#]</u></b> A board game for two to four players. <b><u>Student Management System [Java Desktop Application]</u></b> A desktop application where schools can manage student related data. <b><u>ATM Management System [Asp.net, C#]</u></b> An application which allows customers to perform transactions. <b><u>FIFA Website Replication [HTML, CSS, JavaScript]</u></b> FIFA website
